Heartworms and \$5,000

Zues & Buddy both tested positive for heartworms. These dogs came from different towns and at separate times! How does this happen, you ask. Well, we should all understand that infected mosquitoes bring heartworms to our pets. Plain and simple.

Both dogs were deemed healthy and the prognosis was good for recovery.

Buddy

Buddy came to us as a stray from Concord Vt. He was a middle aged medium sized dog, healthy and energetic. His diagnosis came out during his vet visit for vaccinations.

Zues

Zues was an owner surrender from Lyndonville Vt. He was current on vaccines, and we tested him for heartworm like all the dogs we put up for adoption. His test was positive, and he has been in Vt for all 3 years of his life.

HEARTWORM DISEASE IN DOGS

MUST-KNOW FACTS ABOUT HEARTWORM DISEASE

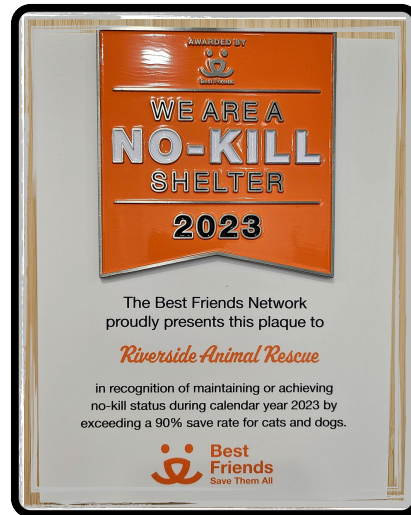

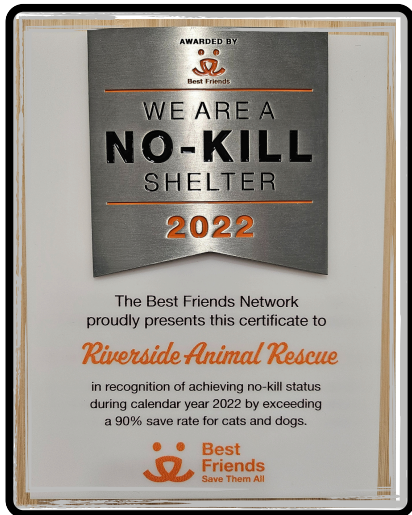

- ♥ Heartworm disease is one of the most common—and **most deadly**—diseases in dogs.
- ♥ More than a million dogs in the U.S. are infected with heartworm disease each year, even though it can be **easily prevented**.
- ♥ Dogs with heartworm can be found in all **50 states**.
- ♥ Heartworms are **spread by mosquitoes**. If you see, swat at, or have been bitten by mosquitoes where you live, that means your dog is at risk.
- ♥ While heartworm disease in dogs can be treated, **treatment** can be costly and time consuming. **Prevention** is easy *and* affordable.

For more in-depth information about heartworm disease, as well as its prevention, diagnosis, and treatment, visit the American Heartworm Society website at heartwormsociety.org.

Exceeding 90% NO-KILL Rate!!

In 2022 we joined the Best Friends Society, during this time we have been able to place over 450 pets into homes in 2 years! Thank you to all who have supported us! We know have 2 recognition plaques in our lobby!

Introducing some long-term residents...

Lucy

Lucy is a 12-year-old lovely kitty. She is indoor only and would be a great companion to someone needing a quieter friend!

Luna & Frankie

Luna & Frankie are 3-year-old littermates. Would be perfect for a cat only home who only wants these 2 cats. They are very loving, always greeting visitors but do not appreciate other pets.

www.riversideanimalrescue.org if you would like to learn more about these or other available pets.

Callie

Callie is a 3-year-old lab/ pit mix. She is deaf, has had extensive training but needs a very experienced owner. She is pretty reactive to other pets and critters so she would need to be the only pet. Follow up training will be included.
